House Bill 809 (Delegate Rosenberg)
 Appropriations

Walter Sondheim Jr. Public Service Internship Scholarship Program - Funding

This bill specifies that the Walter Sondheim Jr. Public Service Internship Scholarship Program consists of at least three public service intern fellowships: (1) the Governor’s Summer Internship Program; (2) the Sondheim Maryland Nonprofit Leadership Internship Program; and (3) the Sondheim Public Service Law Fellows Program. Beginning fiscal 2028, the bill requires the Governor to include an appropriation for the program that is at least 150% of the appropriation provided for these programs in fiscal 2026. **The bill takes effect July 1, 2026.**

Fiscal Summary

State Effect: *Under one set of assumptions,* the University of Maryland Baltimore County (UMBC) expenditures for the Walter Sondheim Jr. Public Service Internship Scholarship Program increase by approximately \$175,000 beginning FY 2028. This analysis assumes the additional program expenditures are supported in the State budget through additional general fund expenditures for UMBC, as discussed below. **This bill establishes a mandated appropriation beginning in FY 2028.**

(in dollars)	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031
Revenues	\$0	\$0	\$0	\$0	\$0
GF Expenditure	0	175,000	175,000	175,000	175,000
Net Effect	\$0	(\$175,000)	(\$175,000)	(\$175,000)	(\$175,000)

Note:() = decrease; GF = general funds; FF = federal funds; SF = special funds; - = indeterminate increase; (-) = indeterminate decrease

Local Effect: No direct fiscal effect; however, the bill may encourage additional individuals to serve in internships with local governments.

Small Business Effect: None.

Analysis

Current Law: Chapter 490 of 2007 established the Walter Sondheim Jr. Public Service Summer Internship Scholarship Program to assist college and graduate students with exploring public service career opportunities through summer internships. Chapter 397 of 2015 expanded the Sondheim scholarship from a summer program to include fall and spring internships and renamed it accordingly. Priority for participation in the program must be given to eligible students who (1) are residents of the State; (2) have demonstrated interest in careers in public service; and (3) assist in providing legal services to low-income State residents, social work services to low-income State residents, nursing services in nursing shortage areas, or other services in the public or nonprofit sectors in which there is a shortage of qualified practitioners for low-income or underserved residents or areas of the State.

The Shriver Center at UMBC administers the program and serves as a clearinghouse for public and nonprofit entities that wish to hire interns from the program. The program is supported with State general fund appropriations to UMBC. Award amounts, as updated under Chapter 536 of 2019, must be a minimum of \$2,000 and no more than \$5,000, subject to the availability of funds.

State Expenditures: UMBC advises that the Walter Sondheim Jr. Public Service Internship Scholarship Program received a total appropriation of \$350,000 in fiscal 2026. Although this funding is embedded within UMBC's overall State support and is not reflected as a separate line item in the State's operating budget, this analysis assumes that amount represents the fiscal 2026 appropriation for purposes of the bill's mandate. Beginning in fiscal 2028, the bill requires that the Governor include in the annual budget bill an appropriation for the Program of at least 150% of the fiscal 2026 appropriation. Accordingly, *under one set of assumptions*, the required minimum appropriation beginning is \$525,000, representing a minimum increase of \$175,000.

Since the program does not receive a discrete line item appropriation, the amount considered to be the fiscal 2026 appropriation for purposes of the mandate may depend on how the State characterizes the embedded funding within UMBC's broader appropriation. Thus, the actual funding required beginning in fiscal 2028 could vary to the extent a different fiscal 2026 baseline is identified.

For context, actual fiscal 2026 *expenditures* for the program totaled approximately \$326,600, including both administrative costs and funding awarded for the three specified fellowship programs, although UMBC reported the *appropriation* was \$350,000. That amount excludes approximately \$99,300 associated with the Maryland Department of Transportation Fellows Program, which is administered separately. For the purposes of this estimate, it is assumed that the bill's mandate is tied to \$350,000 UMBC reports was

appropriated for the program rather than actual expenditures and does not include any funding for the related Maryland Department of Transportation Fellows Program.

Furthermore, this analysis assumes that any increase required to meet the 150% funding mandate is achieved through additional general fund support provided to UMBC, rather than through the reallocation of existing funds within UMBC's overall State appropriation. To the extent the mandate is satisfied through the reallocation of existing funds within UMBC's overall State appropriation, rather than through additional general fund support, the net State fiscal impact may be reduced.
