Analysis

Current Law: Statute establishes certain procedures for individuals seeking to obtain a marriage license. In order to apply for a marriage license, *one* of the parties to be married must:

- appear before a court clerk and give, under oath, specified information that must be placed on an application form by the clerk, including (1) the full name of each party; (2) the place of residence of each party; and (3) the date of birth of each party;
- sign the application form; and
- provide the clerk with the Social Security Number of each party who has one and a copy of an official government-issued birth certificate or other official government-issued document or record demonstrating the age of each party.

If the parties to be married are not residents of the county where the marriage ceremony is to be performed, the clerk must accept, instead of the application described above, an affidavit from one of the parties to be married, as otherwise specified in statute.
