Senate Bill 1007

(Senator Zucker)

Prior Authorizations of State Debt - Alterations

This bill modifies authorizations of State debt in prior year capital budgets, generally by extending deadlines for expending or encumbering funds, removing matching fund requirements, renaming grant recipients, and/or altering the purpose for which funds may be used. In some cases, altering the purpose of grant funds merely makes minor or technical changes for how the funds may be used; in other cases, grant funds may be reassigned/redistributed to an entirely different purpose within the same jurisdiction. **The bill takes effect June 1, 2026.**

Fiscal Summary

State Effect: The bill modifies the conditions under which State grant funds may be used. These changes do not materially affect State finances.

Local Effect: None, unless the grantee is a local government.

Small Business Effect: None.

Analysis

Bill Summary: Several prior authorizations of State debt are consolidated into an omnibus bill. The types of modifications to prior authorizations of State debt that have been consolidated into the bill are generally shown in **Appendix 1**, by current project name, jurisdiction for the current project, and the year of the initial authorization.

Current Law: In general, when a matching fund is required, a grantee must present evidence of the matching fund to the Board of Public Works within two years of the

authorization for State debt, and the matching fund must be certified prior to the grantee's expending or encumbering State funds.

Chapter 153 of 2003 established a seven-year limitation on the authority to spend an appropriation for a capital expenditure and a seven-year limitation on the authorization for State debt unless otherwise provided in an enabling act. The Act applies to all debt authorized on or after June 1, 1997.

Additional Information

Recent Prior Introductions: Similar legislation has not been introduced within the last three years.
