Senate Bill 262

(Senator Simonaire, *et al.*)

Budget and Taxation

Ways and Means

**Income Tax - Subtraction Modification for Classroom Supplies Purchased by
Teachers - Alteration**

This bill expands eligibility for the income tax subtraction modification for educator expenses to certain full-time prekindergarten teachers in publicly-funded full-day prekindergarten programs. **The bill takes effect July 1, 2026, and applies to tax year 2026 and beyond.**

Fiscal Summary

State Effect: General fund revenues may decrease by about \$80,000 annually beginning in FY 2027. The Comptroller’s Office can implement the bill’s change with existing budgeted resources.

Local Effect: Local income tax revenues may decrease by about \$50,000 annually beginning in FY 2027. Local expenditures are not affected.

Small Business Effect: None.

Analysis

Current Law: An eligible teacher may subtract from income up to \$250 of unreimbursed expenses paid or incurred during the tax year for the purchase of classroom supplies if the supplies are used by (1) students in the classroom or (2) the eligible teacher to prepare for or during classroom teaching. “Eligible teacher” is defined as an individual who is a kindergarten through grade 12 classroom teacher in an elementary or secondary school in the State on a full-time basis for an academic year ending during the tax year.

The subtraction allowed does not include any amount excluded from federal adjusted gross income under the federal “above-the-line” deduction for unreimbursed educator expenses, which already flows through to the Maryland income tax return. The federal deduction is allowed for certain expenses paid or incurred by an eligible educator during the tax year for professional development or in connection with books, supplies, computer or other equipment, or supplementary materials, subject to an inflation-adjusted dollar amount limit. For tax year 2026, the dollar amount limit is \$350. “Eligible educator” is defined as an individual who is a kindergarten through grade 12 teacher, instructor, counselor, principal, or aide in a school for at least 900 hours during a school year.

State/Local Revenues: Beginning in fiscal 2027, general fund revenues may decrease by about \$80,000 annually, and local income tax revenues may decrease by about \$50,000 annually. This estimate is based on an analysis of historic claims for the educator expense subtraction modification and Maryland teacher employment statistics published by the U.S. Bureau of Labor Statistics. Actual revenue losses under the bill may be less in the near term and greater in the long term due to the bill’s eligibility requirements and planned expansion of publicly-funded full-day prekindergarten under the Blueprint for Maryland’s Future. A more precise estimate is not feasible at this time.

Additional Information

Recent Prior Introductions: Similar legislation has not been introduced within the last three years.
